OUR OWN BRAND

ANCHOR PRODUCTS

Reliable solutions crafted to enhance
quality, performance and consistency.

CAKE LIFE

Anchor Cake Life is a concentrated cake improver which produces excellent cake and increases the shelf life & texture of the cake, both for high-fat cakes and low-fat (oil) cakes.

CAKE GEL

Cake Gel improves the grain size, texture, softness retention, and volume, which improves the quality parameters of cake sponge.

CAKE SYRUP

Maintains moisture in cakes, thus preventing them from drying. Helps in maintaining freshness and softness.

BREAD YIELD IMPROVER

Bread Yield Improver increases the volume of bread by 8-10% and also improves the texture of the bread.

MACP

(Mono Acid Calcium Phosphate)

Provides controlled leavening action for consistent baking performance and superior product quality.

CUSTARD POWDER

Easy-to-use custard mix that delivers a smooth texture, rich taste, and consistent quality in every serving.

BAKING POWDER

Ensures excellent rise, light texture, and dependable baking performance.

FOOD ADDITIVES PRESERVATIVES

Preservatives

- Potassium Sorbate
- Sorbic Acid
- Sodium Benzoate
